This month's program "More Than Motor Symptoms" will be present by Dr. Renato DeLosSantos. Dr. DeLosSantos specializes in Geriatric Psychiatry and will be speaking on Parkinson's being more than Motor Symptoms. His talk is sponsored by ACADIA and there will be a representative at the meeting so that you can talk to them about NUPLAZID a medication for treatment of hallucinations and delusions associated with Parkinson's disease psychosis.

Our May program was on Deep Brain Stimulation presented by Laura Dobsch of Medtronic, Inc. She gave a very good overview of the procedure and how it worked then had lots of time for questions. Oh, the Panera cookies really hit the spot.

We continue our series of Bio's on the Members of the Movement Disorder Team at Illinois Neurological Institute this month with Betsy Fennell.

Barb and I attended the Davis Phinney Victory Summit in Nashville TN on May 19th. The Program was outstanding and if you ever have a chance to attend one of these Victory Summits please do. The primary focus of the Summit and the Davis Phinny Foundation is to help people with Parkinson's live well today. While I could go on for a long time about the Summit program I just want you to take one statement that they displayed on the screen and follow it.

BE COURAGEOUS

The road won't be easy, but the results will be worth the effort. Make the commitment to fight hard, live fully and make every victory count.
